Section One: Introduction

To ensure that schools meet federal and state requirements for Title I, Part A Parent and Family Engagement, the Kansas Parent Information Resource Center (KPIRC) has developed this Title I, Part A Annual Meeting Toolkit. This toolkit is designed to assist in the planning of all components required for the Title I, Part A Annual Meeting.

This toolkit includes the following resources to aid schools in the planning process:

- A Title I, Part A Annual Meeting presentation that can be individualized for each Title I, Part A school.
- A checklist to be used to plan all aspects of the Title I, Part A Annual Meeting in your school.
- A visual timeline to help guide you throughout the year.
- Sample forms for the Title I, Part A Annual Meeting including:
  - Meeting Agendas
  - Sign-in sheet
  - Minutes form
  - Surveys

To use the toolkit effectively, it is suggested the person(s) responsible for the planning and presentation of the meeting begin with reviewing ESSA guidelines and best practices in the PowerPoint as well as one-page documents. All pages included in the toolkit are tools to use for planning and documentation purposes. These samples are not official forms and they should be modified to fit the individual needs of each school. This toolkit was designed to assist schools in meeting the requirement for the Title I, Part A Annual Meeting only. All Parent and Family Engagement (PFE) requirements for schools receiving Title I, Part A funds can be found in Section 1116 of Every Student Succeeds Act.
Title I, Part A Overview

Every Student Succeeds Act (ESSA)

Each school receiving Title I, Part A funds, schoolwide and targeted assistance, is required to convene an annual meeting. The purpose of this meeting is to inform parents and families of their school’s participation in the Title I, Part A program and the right of the parents to be involved. ESSA Section 1116(c)

As you begin the planning process for the Title I, Part A Annual Meeting it will be important to refresh yourself on necessary information to meet all criteria set forth through ESSA and the Kansas State Department of Education (KSDE). Please use the following PowerPoint presentation and one-page documents to guide you in your yearly planning.

NOTE

This PowerPoint can be used by KSDE to train LEAs and schools.

This PowerPoint can also be given to LEAs and schools to use with their parents and families. They should present the info at least through slide 17.

Slides 18-26 briefly describe the benefits of parent and family engagement with some activities that encourage conversation.

Benefits of Parent and Family Engagement

**TITLE I, PART A**
**PARENT AND FAMILY ENGAGEMENT**

Through effective communication with parents, teachers can have the greatest impact on their day-to-day success with students. With parents on their side, teachers can more effectively manage most academic and behavioral issues that arise. When the most important adults in a child's life are working together, students benefit enormously.

Lee and Marleen Canter

Table Activity

Partner with those at your table to discuss the following questions:

- What form of communication works best for you? (telephone, text, email, note, face-to-face, etc.)
- What kinds of information do you most want to receive from the school?
- What might the school do differently to improve communication between school and home?
- What might you, as a parent, do differently to improve communication between home and school?
When school, families, and community groups work together to support learning, children tend to do better in school, stay in school longer, and like school more.

*Henderson and Mapp*

---

**Table Activity**

- Partner with those at your table to discuss the following questions:
  - What are the strengths of your school and community?
  - In what ways are your school, families, and community working together effectively?
  - What are the possible benefits when schools, parents and families, and community groups work together?
  - What might schools, parents and families, and the community do differently to work together more successfully?

---

**What Are the Benefits?**

Title I, Part A Parent and Family “Meetings”

Statutory Reference:

Each school served under this part shall – offer a flexible number of meetings, such as meetings in the morning or evening, and may provide, with funds provided under this part, transportation, child care, or home visits, as such services relate to parental involvement. ESSA Section 1116 (c)(2)

United States Department of Education (USDE) has not provided Parent and Family Engagement non-regulatory guidance. Therefore, KPIRC is providing parent and family engagement meetings guidance in the following manner.

Meetings

The statutory requirement is to have various opportunities for parent engagement activities available on different days and times.

• The Title I, Part A Annual Meeting is a required school level meeting. ESSA Section 1116 (c)(1)

• Each Parent and Family Engagement (PFE) meeting must be offered at a convenient time for parents and families. ESSA Section 1116 (c)(2). For example:
  – soliciting input regarding the PFE policy and school-parent compact, ESSA Section 1116 (a)(2), (b)(1), (c)(3);
  – gathering feedback about the content and effectiveness of the PFE policy, ESSA Section 1116 (a)(2)(D);
  – receiving input regarding how funds for PFE are being allotted for PFE activities, ESSA Section 1116 (a)(3)(B);
  – explaining annual school report cards, student curriculum and assessment, and STAAR tests, ESSA Section 1116 (c)(4)(B), (d)(1) & (d)(2)(B).

• Other PFE training activities should be offered more than once, when feasible. For example:
  – providing training to parents and family about homework strategies.
  – providing materials and training to help parents work with their children in literacy or using technology; and
  – providing training in reading or math or other types of academic enrichment.

What is the intent of the statute?

Schools need to reach out and include as many parents, family members or legal guardians as practicable in compliance training and other PFE activities and programs. Schools also need to provide these services and opportunities at flexible times and at a location that best meets the needs of the parents.

Statutory Reference:

Each school served under this part shall – involve parents, in an organized, ongoing, and timely way, in the planning, review, and improvement of programs including the planning, review, and improvement of the school parent and family engagement policy … (with a process that) includes an adequate representation of parents of participating children. ESSA Section 1116 (c)(3)
Parent, family members or legal guardian involvement

Statute reads parents, family members, or guardians which means more than one for adequate representation of parents. Multiple parents, family member or legal guardian representation is needed. For example:

- developing/revising the school parent and family engagement policy and school-parent compact, ESSA Section 1116 (a)(2), (b)(1), (c)(3);
- developing/revising the school improvement plan, ESSA Section (c)(3);
- evaluating the content and effectiveness of the parent and family engagement policy, ESSA Section 1116 (a)(2)(D);
- deciding how funds under this part will be allotted for parental involvement activities, ESSA Section 1116 (a)(3)(B); and
- developing training for school staff, ESSA Section 1116 (e)(3) & (6).

The school should solicit public comment from parents, family members, and legal guardians on the topics identified above. Comments will be used in the final decision making.

If the Site-Based Decision-Making committee is the primary committee for these tasks, it is important that the parent representatives complement the demographics of the LEA and school.
Section Two: Title I, Part A Annual Meeting Planning Materials

Planning Checklist 13
The checklist has been created to help in planning and organizing all aspects of a Title I, Part A Annual Meeting. This checklist covers planning dates, scheduling facilities, organizing staff and notifying parents.

Yearly Timeline 16
The timeline encompasses the entire year, but the goal of this document is to help make sure all programs and planning have been completed and are ready to present to parents and families at the Title I, Part A Annual Meeting. We encourage you to print out this colorful tool and keep it posted throughout the year for guidance.

Agenda (Fall Meeting) 17
The sample agenda covers the essential requirements of ESSA that MUST be presented at the Title I, Part A Annual Meeting. Please use this sample agenda to guide you when developing an agenda for your school’s meeting.

Agenda (Spring Meeting) 19
Although ESSA does not specifically require an additional meeting from the Title I, Part A Annual Meeting, it is best practice to hold a spring meeting to meet all ESSA requirements on parent engagement.

Meeting Minutes 20
Accurate meeting minutes need to be saved for documentation purposes. Make sure that part of your minutes include documentation of parent feedback and suggestions given during the meeting. Consider having a designated staff member present to take minutes.

Sign-In Sheet 21
To obtain accurate documentation of parent attendance at this meeting, it is suggested that you have a staff member present that can guide guests to sign-in and provide additional information at meetings. Be vigilant in keeping these sign-in sheets for documentation purposes. Sign-in sheets must have identifying information including:

Virtual Title I, Part A Annual Meeting Suggestions

Advances in technology have provided schools the ability to engage with parents and families more than ever before. Virtual meetings have become not only an exciting way to reach parents and families but, due to current health conditions, are a necessity to meet state and federal requirements. As schools begin preparing for a new school year it will be important to have plans in place for the Title I, Part A Annual Meeting that may need to be held virtually for your school.

Virtual Title I, Part A Annual Meeting Suggestions

Will ESSA programmatic requirements such as updating policies, private school consultation, or parent meeting be waived in our planning process for next year’s federal grant programs?

- ESSA program requirements that are part of the planning process for 2020-2021 school year are not being waived.

May an LEA use Facebook or other social media and virtual meeting options to conduct meetings which are required by Title I, Part A?

- The required Title I, Part A meetings may be held in a variety of virtual settings due to the circumstances. Document the meeting and those participating as much as possible.
This document has been created to share some tips and suggestions that may be helpful when planning virtual meetings (live and interactive) and making sure required documentation is retained for random validation purposes.

- **Agenda:** An agenda is required and will need to be provided for parents and families prior to or during the virtual meeting. Consider mailing, emailing, or posting an agenda to a website ahead of time. If there are last minute changes, please notify parents, and document the changes in the meeting minutes.
  - School Parent and Family Engagement Policy and School Parent Compact still need to be made available to parents and families for this meeting. These could be attached to the agenda that is mailed or posted prior to the meeting or posted on the website with clear instructions given during the meeting of where they can be found.

- **Evidence of Meeting Date and Time Opportunities:** The school is required to provide one annual meeting on a date and time that is most convenient for families. Two or more meetings at different times and dates

- **Meeting Minutes:** Although many platforms have tools to record a meeting, this is not sufficient for meeting minutes documentation. Make sure one person is recording minutes manually to file and store for compliance purposes.

- **Virtual Attendance Recording:** Participant Report; ask participants to identify their name and role in the chat box – copy list and paste into another document, then save this document as attendance evidence. Think about assigning one person to take attendance as you see new attendees hop on to your meeting.

- **Translation Services:** Provide to families, informational pieces that are translated, depending on your community needs. It may be difficult to conduct a virtual meeting in multiple languages, therefore it may be necessary to hold additional meeting in a language parents can understand.

**Preparation**

- **Prepare a Team:** You will need a team for your virtual meeting. You will still need a couple of people to take minutes, help with an agenda, translation, or sign in record. The more hands on board the more successful your virtual meeting can run.

- **Choose Times Carefully:** Virtual meetings do provide more flexibility. However, take into consideration the busy schedule of parents. Also consider the length of your meetings. Best practice show online meetings should not be longer than 90 minutes. It is anticipated a virtual annual meeting will last 15-30 minutes.

- **Send out Material Ahead of Time:** Help families prepare by providing an agenda ahead of time. Attach the agenda and other meeting documents to your meeting notices.

- **Have a Back-Up Plan:** Virtual meetings depend on technology and sometimes that may not function as planned. Include contact information or procedures for assistance in case of trouble with connectivity or meeting disruptions.
Technology

- **Meeting Platform:** Inform parents of the meeting platform (Zoom, Facebook, Etc.) that will be used so appropriate technology arrangements can be made prior to the virtual meeting.

- Make Sure Participants Can Hear: Try and have adequate microphone coverage. Remember, some families will be able to hear clearly through a skype call, while others on a phone call may struggle with background noise, so make sure presenters are in a quiet area that has little traffic to avoid interruptions.

- Do a Dry Run: Do not wait until five minutes before a meeting to realize that the internet is down, microphones are broken, or a program needs a new update. Make sure to test all hardware and software prior to online meetings.

**Virtual Meeting Protocol**

- Feedback/Input: Encourage feedback or input from families. If you are using chat boxes or allowing families to speak, make sure you explain your procedures and instructions for this. Think about using interactive feedback such as live online polls. Also, consider allowing emailed responses for those parents who are not comfortable asking questions publicly or for private matters.

- Clearly Establish Who Is Present: To help parents feel safe and build trust, make sure to announce who is facilitating and speaking in your virtual meeting.

- Follow the Agenda: It is important to follow the agenda to respect others’ time and help those following along at home. If a last-minute change has occurred, explain the change at the beginning of the meeting.

- Conduct a Meeting Evaluation: It is very helpful to know what worked and what needed improvement. Consider providing an evaluation after your meeting. Give team members as well as families an opportunity to make suggestions. Seek out specific feedback on how to make your virtual meetings more successful in the future.

Meeting Platforms

There are many web conferencing tools to use for your virtual meeting. **This document provides some ideas and suggestions to help schools make decisions about the best web conferencing tools to utilize.**

When selecting an online tool, consider the size of your audience, and/or special presentation needs. The following are some platforms that have been used by districts with success. Schools may use Title I, Part A funding to pay for online subscriptions or resources.

Additional Meeting Options and Considerations

As mentioned above, there are a variety of virtual platforms that can be used during these unprecedented times. Live, interactive meeting options are considered best practice as they allow parents and families to ask questions and give feedback on programs, but with unforeseen circumstances this may not be possible for all schools.

Recorded Meetings

It is acceptable for a school to share a recording of the Annual Title I Meeting with parents provided they adhere to requirements listed below to meet the intent of the law:

- **Questions and Feedback:** The school will need to offer an opportunity for questions, answers, and feedback from parents after they view the recording. Here are a few suggested ways this could be achieved:
  - Advertise and offer a virtual Q&A session for parents to attend and post a version of this Q&A session for parents to view and hear the additional questions and comments made by others.
  - Use a survey tool or online polling software to receive feedback from families after they view the recording.
    - Survey tool examples: Survey Monkey, Google Forms, SoGoSurvey, etc.
    - Online polling software: Slido, AhaSlides, Poll Everywhere, etc.
  - Use a platform like Google Forms that allows you to imbed a video or slides as well as questions in one place. This will also give you an attendance record when families log in.

- **Required Documentation**
  - Documentation is still required regarding how you advertised the recorded version of the meeting. Ensure parents understand when they can view the recording and that it is available at different times and on different days to meet family’s needs. If posted online, give dates it will begin and when it will be taken down as well as the timeline you will be accepting questions, answers, and feedback.
  - An agenda is still required to be sent or posted either prior to or at the beginning of the recording.
  - Minutes will still need to be written/typed from the recording as well as updated with the questions, answers, and parent suggestions and kept for random validation documentation.
  - LEA’s will still be required to have some type of sign-in sheet or attendance roster for these recorded meetings. Different sign-in sheets/attendance rosters may be needed to show who participated in the questions and answer session if that is held at a different time. The survey tools mentioned above could be a way to capture parent participation for this documentation.
  - A translated version(s) may be required so all families have access to the information in a language they understand, and this documentation must be kept. Tip: YouTube and Google Forms allow participants to choose their language for subtitles/closed captions so they can access information in many different languages. Documents shown online may still need translation if the program used does not offer this service.

Online Alternative Options

Be prepared to have alternate options in sharing the information from the meeting for parents that may not be able to access virtual meetings or recordings online. For example, printing and mailing a copy of the PowerPoint shared during the meeting along with a copy of the minutes with the questions and answers given. A form or type of survey for parents to give feedback or ask questions would also need to be provided in a printed version. Keep documentation of the families who requested and received the mailed information for random validations.
Section Three: Surveys

Surveys may be used at any point in the year beginning at the Title I, Part A Annual Meeting or anytime throughout the spring to help schools with school needs assessments, school improvement plans and overall improvement of the Title I, Part A program. Below are several surveys that can be used in gaining insight regarding programming at your school.

Survey Guidelines

Surveys can be very powerful and useful research tools. However, if badly constructed they can cause confusion quickly consume resources, and yield useless data. Please consider the following tips before writing a survey:

1. Plan in advance. Surveys may take anywhere from one week to a month or more to develop, depending on complexity and format.

2. Determine your needs. Create a list of issues, questions, ideas, presumptions, etc. that you want to gain insight into. Ensure that this information is not available from other sources before beginning the survey process.

3. Aim for brevity and simplicity. Use wording that is easy to understand and avoid using jargon and abbreviations. You may only need to ask 5 to 10 targeted questions to get the information you are looking for.

4. Give clear instructions. Provide the reason/purpose of the survey and clear directions for completing and returning the survey. Include instructions throughout the survey where applicable (such as “select only one” or “mark all that apply”). Also, prominently post any response deadlines.

5. Ask one question per question. Do not confuse the respondent or your analysis with questions that force one response for two questions. For example, do not ask “Are you satisfied with access to faculty and administration?” Instead, separate faculty and administration into different questions.

6. Use multiple choice questions. This will decrease the time it takes to complete the survey and make analysis easier. Make sure that response options are mutually exclusive. For example, if you are asking for the respondent’s age, the options should be 0-18, 19-24, 25-34, etc. and not 0-18, 18-25, 25-35, etc.

7. Keep rating scales consistent. Utilize the same rating scale for all questions. Additionally, the most positive response should have the highest numerical value. For example, Very Satisfied should have a value of 5 on a 0-5 scale.

8. Provide balanced response options. For example, if there are options of Very Satisfied and Satisfied there must also be options of Unsatisfied and Very Unsatisfied.

9. Do not lead respondents to an answer. For example, do not ask “Do you agree that the cost of textbooks is too high?” Instead, ask the respondent to rank the cost of textbooks on a scale from Very Expensive to Not Very Expensive.

10. Make it flow. Questions should follow a logical order, starting more general and becoming more specific.

11. Community Awareness. Be aware of local, state, and national issues, such as elections, that could influence survey results.

12. Keep it current. Update surveys each year so the information is relevant to the current needs of the school. (Parents may not participate in surveys over time if they feel they continue to report the same ongoing needs without change.)

If the survey is going to be administered over the Internet, consider the following:

1. Be honest about length. Tell respondents up front how much time they should allow for the survey. If the survey takes 30 minutes to complete, do not tell them it will take 15 minutes.

2. Show the progress. For surveys that are more than one or two pages, provide a progress indicator that shows how much of the survey is remaining.

3. Send reminders. Telephone or email reminders can help to increase the response rate.

4. Test, Test, Test! Test the survey and underlying database prior to opening the survey to ensure everything is working correctly.
